MOHAN KRISHNA KOLLI

Indian Institute of Technology Gandhinagar.

Ph Nos: +91 8500441687; +91 6302690903

mohan.kolli1@gmail.com : https://orcid.org/0000-0001-5339-1656 : DOB: 08/11/1992

EDUCATION

Doctor of Philosophy, Indian Institute of Technology Gandhinagar

August 2017 – July 2023

CGPA: 9.41/10

Thesis Topic: Development of Design Tools for Serviceability Design of Rigid-Faced GRS Walls

Advisor: Dr. Amit Prashant

Masters of Technology, Indian Institute of Technology Gandhinagar

July 2015 - August 2017

CGPA: 8.8/10

Dissertation Title: Simplified 1-D Modeling of Duo-Pile Foundation System

Advisor: Dr. Amit Prashant and Dr. Dhiman Basu

Bachelor of Technology, VR Siddhartha Engineering College (JNTUK)

June 2011 - April 2015

CGPA: 9.8/10

Project Title: Analysis and Design of Pre-Cast Buildings

PROFESSIONAL EXPERIENCE

1. Consultant and Director, GeoSynapse Private Limited

April 2023 to Present.

Projects: Web link - www.geosynapse.in

2. SRF, Indian Institute of Technology Gandhinagar

February 2021 to February 2023

Project: Geosynthetic Reinforced Soil Walls and Abutments for High-Speed Railway Systems by NHSRCL (Phase-1).

3. Member of BIS Panel on Reinforced Soil Structures, TXD-30.

4. **Member of BIS Panel** on Reinforced Soil Structures for Railways, TXD-30.

5. Assistance in Consultancy Works, Indian Institute of Technology Gandhinagar

August 2017 – July 2023

- Rehabilitation of Canal Slopes and Retaining Walls – Reinforced soil and Gabion solutions.
- Rehabilitation of Flexible Pavement – Geocell & Geogrid Stabilization Solutions.
- Economic Feasibility of Pile Foundations for Solar Panels-- Solar Park Foundations.

Assisted in designs, participated in technical discussions and site visits.

6. Teaching Assistant, Indian Institute of Technology Gandhinagar

- Geosynthetics: Post-graduate course: Even Semester (January-April) in 2019, 2020.
- Slope Stability and Retaining Structures: Post-graduate course: Odd Semester (August-November) in 2019.
- Soil Mechanics: Under-graduate course: Odd Semester (August-November) in 2018.

7. Graduate Teaching Fellow (GTF), Indian Institute of Technology Gandhinagar

- Geosynthetics: Post-graduate level course: Even Semester (January-April) in 2021.

8. Assistance in Writing Research Proposals, Indian Institute of Technology Gandhinagar

August 2017 – July 2023

- Sanctioned project of "Geosynthetic Reinforced Soil Walls and Abutments for High-Speed Railway Systems" by High-Speed Railway Innovation Center Trust.
- "Application of Geosynthetic Reinforced Soil Walls for Indian Railways" submitted to National Textile Mission, Ministry of Textiles.

RELEVANT COMPUTER SKILLS

Programming Languages: MATLAB

Software Packages:

Finite Element: OpenSEES, Abaqus

Design tools: Geo5, Geostudio, Slide, MSEW, ReSSA, SAP2000.

Seismic analysis tools: DeepSoil, SHAKE 2000, SeismoSignal,

Drawing: AutoCAD.

RESEARCH INTEREST

- Geosynthetic Applications; Locally Available Sustainable Resources as fill materials.
- Modeling and Instrumentation of Geotechnical Structures.
- Seismic Design of Geotechnical Structures; Site Response Analysis; Random Vibration Theory.

PROFESSIONAL MEMBERSHIPS

- International Geosynthetics Society, IGS
- Deep Foundation Institute, India

ACHIEVEMENTS

- Recipient of three Institute Gold medals for highest CPI in B.Tech, highest CPI in civil engineering department and highest CPI in structural analysis subjects.
- Recipient of the Gold medal for highest CPI in Civil Engineering Department in M.Tech.
- Placed among the top 1% in Graduate Aptitude Test in Engineering-2015, India.
